## FORMS

Tag	Type	Description
<form action="URL" method="GET"> HTML form controls </form>		All form controls inside the <form></form> tags will be sent to the action URL on a submit.
<input type=" <b>text</b> " name="">	inline	Defines a one-line text input field. Name specifies the name of the input field.
<input type=" <b>password</b> " name="">	inline	Defines a one-line password input field. Name specifies the name of the input field.
<input type=" <b>email</b> " name="">	inline	Defines a one-line email input field. Name specifies the name of the input field.
<input type=" <b>radio</b> " name="" value=""> add <u>checked</u> if you want the default to be checked.	inline	Defines a radio button (for selecting one of many choices)
<input type=" <b>submit</b> " value="">	inline	Defines a submit button (for submitting the form). Value is the text of the button.
<input type=" <b>checkbox</b> " name="" value=""> add <u>checked</u> if you want the default to be checked.	inline	Defines a checkbox. Value is the value assigned
<textarea rows="" cols="">  </textarea>	inline	creates a text box area of size "rows" and "cols". Note that text appearing between the open/end tags is the default data to be placed in the text area.
<label><input type="type"> Content </label>	inline	Associates content (text or image) with an input type.
<input type="reset" value="">	inline	Defines a reset button (for resetting all inputted text in a form)  Value is the text of the button.
<select name="name"> <option>option1</option> <option>option2</option> <option>option3</option> ... </select> Add <u>selected="selected"</u> within the <option> tag for the default option.	inline	<select> creates a pulldown list. <option>..</option> are the values of that list.
<fieldset> <legend>Title</legend> </fieldset>	block	fieldset groups related input fields, adds a border; legend supplies a caption
<button id="name"> Text <button>	inline	This style of button is more common with JavaScript (and not forms). Create buttons and attach functions to various events.
