

## Project Report

# Performance Evaluation of Different TCP versions

Jane Smith (ID: 1234567)

Department of Computer Science and Engineering

York University, Toronto, Canada

## Abstract

(A summary of the report and results)

## 1. Introduction

What is the purpose of this study?

Define the three TCP versions.

Outline (structure) of the report

## 2. Experiment Setting

Configurations

Parameters (link capacity, transmission rates, duration of experiments, etc.)

## 3. Experimental Results

### 3.1 Configuration 1

Show the graphs.

Analyze and compare the results/graphs.

### 3.2 Configuration 2

Show the graphs.

Analyze and compare the results/graphs.

## 4. Conclusion

Summarize your findings from the experimental results.

## References
