Bethune College is recruiting Class Representatives (CR) for major Faculty of Science and Faculty of Engineering courses. The role of CRs is to act as liaisons between the professor and students in the classroom. When necessary, CRs will meet with their corresponding course instructor/director to discuss any issues or concerns on behalf of the class. Bethune College provides CRs with a forum to share ideas and strategies to strengthen student-instructor interactions. This is designed to strengthen the ties between students and course directors to help students get more engaged and do better in their courses.
