Administrative Issues

EECS3311 M: Software Design Winter 2019

CHEN-WEI WANG

Instructor

How may you call me?

JACKIE

(most preferred)

"Professor Jackie", "Professor", "Professor Wang", "Sir", "Hey", "Hi", "Hello"

- Office: Lassonde Building 2043
- Office hours: *3pm 5pm* on *Wednesdays* and *Fridays*.
 Or by appointments.
- Advice on performing well in the course? Speak to me early !

Class Protocol

- No talking, no mobile *distracting*, *disrespectful*
- If you feel like talking or using mobile, please *leave*.
- In class: core concepts, examples, your engagement

Writing E-Mails to Your Instructor

- Think of me as your *colleague* who is happy to help you learn.
- You want to write to your colleagues with *courtesy*.
- This sounds *very rude* (and may be delayed, if not ignored):

```
On the link you sent us for our mark
my mark for lab0 did not appear on it
and i submitted lab0 during my lab session
--
sent from my iPhone
```

• This sounds *much nicer*:

```
Hello Jackie, the link you sent didn't work.
I did submit my lab0. Could you please look into this?
Thanks! Jim
--
sent from my iPhone
```

Course Information

· Course Wiki Site:

- o https://wiki.eecs.yorku.ca/course_archive/
 2018-19/W/3311/
- Subscribe to the forum here.
- · Lab instructions, due dates, etc. posted here.
- Two moddle sites: http://moodle.info.yorku.ca/
 - LE/EECS3311M-Software Design(Winter 2018-2019)
 - Announcements for Section M only.
 - LE/EECS3311M, Z-Software Design(Winter 2018-2019)
 - Announcements for **both** sections.
- · Check your emails regularly!

Course Syllabus

Available on:

- Section M Moodle site.
- Course wiki site

• Lecture materials (recordings, iPad notes, slides, example codes) will be posted on my website for you to *re-iterate concepts and examples*:

https://www.eecs.yorku.ca/~jackie/teaching/lectures/ #EECS3311_W19

· Assigned readings (find them in the wiki site)

Each lecture will be recorded entirely:

- Not meant to be a replacement for classes!
- Focus reaching *maximum comprehension*.
- Ask questions!
- Take (even incomplete) notes, which will help when re-iterating lectures.

- To do well, *inspiration* is more important than *perspiration*.
- Hard work does not necessarily guarantee success, but no success is possible without *hard work*

 \Rightarrow

- Don't be too satisfied just by the fact that you work hard.
- Make sure you work hard both on *mastering "ground stuffs"* and, more importantly, on *staying on top of what's being taught*.
- Be *adventurous* about going beyond lectures.
- \circ Be *curious* about why things work the way they do.
- Always reflect yourself on how things are connected.

Academic Integrity

Apply an Educational Github account!

The moral code or ethical policy of academia:

- avoidance of cheating or plagiarism;
- maintenance of academic standards;
- honesty and rigor in research and academic publishing.

Pay careful attention to *all* occasions where the submitted work is to be graded and receive credits (i.e., labs, quizzes, assignments, tests, exams).

It is *absolutely not* acceptable if, in any of these occasions, you:

- share your (programming or written) solutions with others;
- copy and paste solutions from elsewhere and claim that they are yours.

10 of 12

- Please approach me (email, in person) as soon as possible, so we can make proper arrangements for you.
- We will work out a way for you to gain the most out of this course!
