Class Protocol

- No talking – **distracting, disrespectful** to everyone.
- If you feel like talking, please **leave**.

- In class: core concepts, examples, **your engagement**
- You’d study the **remaining** slides/notes on your own.
- Speak to me **early** when you have trouble studying!

Study Tips

I attempt to record each lecture entirely:

- *Not meant to be a replacement for classes!*
- The purpose of recording is that you can focus on reaching *maximum comprehension*.
 - *Ask questions!*
 - Take (even *incomplete*) notes: they help when re-visiting lectures.

Github

Apply an **Educational** Github account (for *private* repositories) with the following format:

- `lastName-firstName-studentNumber`
e.g., `chenwei-wang-205465208`
- When you submit assignments and project, you may be required to both:
 - Submit to EECS server electronically
 - Commit & Push to your **private** repository

Academic Integrity

The moral code or ethical policy of academia:

- avoidance of cheating or plagiarism;
- maintenance of academic standards;
- honesty and rigor in research and academic publishing.

Pay careful attention to *all* occasions where the submitted work is to be graded and receive credits (i.e., labs, quizzes, assignments, tests, exams).

It is **absolutely not** acceptable if, in any of these occasions, you:

- share your (programming or written) solutions with others;
- copy and paste solutions from elsewhere and claim that they are yours.
