Not strictly enforced, but aim for 4-5 pages, 11pt font, 1-1.3 inch margins.

## Content

You may choose the following structure:

**The Problem** Describe the problem, the paper is addressing, in your own words. What is the main question asked? Place it in context. How do the authors motivate their research question?

**Solution** Summarize the solution the authors are offering. Describe both the method they are using and their results.

**Discussion** How important do you think the questions asked in this work is? Is the solution offered by the authors satisfactory? What is the main contribution of this study (relative to previous work)? Do you see any issues? How do the problem and the results relate to what we have seen in class? Are there questions/aspects to the problem considered that are not addressed in this work? What are possible follow-up questions? Do you have any ideas on how to improve the results?

Always clearly indicate when you are summarizing or citing content from the paper as opposed to stating your own evaluation of the work.
