Test 1 Review

Assignment 1 Solution Walkthrough

Strategy (50 minutes)

- ≤ 25 minutes 4:30 pm
[4:55 pm]

Programming Part

↓
partially completed
projects with no
compilation error

export & submit.

- 25 mins → eClass

start with 1st minute
navigating through
the questions.

- leave 5 ~ 10
minutes
↳ check answers
↳ go back to
Eclipse.

1. Programming Part

↳ No extra class (not required by the ^{Tests} Unit tests)

↳ No modifications on "base" classes

↳ OK to add extra helper ^{methods} and attributes.

Starter tests may not cover all edge cases.

↳ make sure to program your methods generally.

Assume: graph for programming part is undirected (17k A1)

Removing 1 edge from a connected graph

Connected
cyclic

Connected
acyclic

$\deg(x)$
